

Rhyme

A BETTER BUSINESS PARTNER

Stop Buying Downtime, and Invest in Uptime

Technology is great until it breaks. It not only causes unpredictable headaches and expenses, but it can also impact your time, financials, efficiency, productivity, image. Instead of fixing technology as it breaks, take a proactive approach to prevent downtime, headaches, and unpredictable costs.

Managed IT Services with Rhyme iT can help you gain time with a live-answer US-based service desk who answers your calls faster and fixes your issues quicker. Let us help you achieve greater financial stability in a preventative support model that provides cost avoidance and a

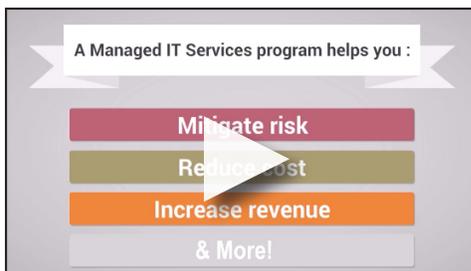

predictable monthly bill. Increase efficiency of your systems and team with a proactive maintenance and hardware replacement plan that keeps your systems running better. Improve staff productivity with our issue avoidance plan and let us manage your technology vendors.

Instill confidence in employees and customers with a technology plan that grows and changes with your organization and needs. A Rhyme Managed IT Services program helps you mitigate risk, reduce costs, increase revenue by giving you back productive time and prevent the events that cause major business and financial implications. Bring your focus

back to **your business** and get the peace of mind you deserve.

Rhyme iT is constantly doing "behind-the-scenes" work where we will be constantly monitoring your network to ensure it is reaching the peak efficiency and reliability levels to keep your business running. We will host Quarterly Business Reviews to make sure all of your goals are being met and that you are 100% satisfied with your decision to partner with Rhyme.

Contact us for more information on how Managed IT Services can help your business.
