

# MANAGED IT MYTHS BUSTED

## WHAT MANAGED IT REALLY IS:

1

### MYTH

MIT is only for large companies.

### FACT

MIT fits any size business, particularly small & mid-sized ones.

2

### MYTH

Outsourcing MIT means losing control.

### FACT

A good MSP partners with you & your goals.

3

### MYTH

My business is too small for cyberattackers to target.

### FACT

Small businesses are often targeted more due to weaker defenses.

4

### MYTH

MIT is only about fixing computers.

### FACT

MSP offers cybersecurity, cloud services, & more.

5

### MYTH

Antivirus alone is enough for us.

### FACT

Today's threats require layered security.

6

**MYTH**

All MSPs offer the same services.

**FACT**

Providers differ in expertise, service, security & strategic ability.

7

**MYTH**

Switching to an MSP is complicated & disruptive.

**FACT**

A well-run MSP onboards with minimal disruption.

8

**MYTH**

MIT will replace my internal IT team.

**FACT**

MSPs take daily tasks, freeing staff for higher-value work.

9

**MYTH**

An in-house IT person can do everything.

**FACT**

Even top in-house IT can't cover every specialty.

10

**MYTH**

MIT is more expensive than hiring in-house.

**FACT**

MIT provides flexible support, predictable costs & broad expertise.
