“Scheduled Meeting Error”

“Stimulus Cancellation Request Approved”

“Action needed: update the address for your Xbox Game Pass for Console subscription”

Microsoft 365

Rhyme can help you with remote monitoring and management of your network to be more proactive in preventing phishing and similar attacks. Should you fall victim to a phishing attack, Rhyme would have a reliable backup and disaster recovery (BDR) solution in place to ensure your essential data can be restored with as little downtime as possible.
