Versatile, productive, and easy to use

Versatility

The Lexmark XM5200 Series is a versatile multifunction system to help your business be more productive. Configure your device with the right features and productivity solutions to simplify your workflow so you can focus more on business.

- ▶ Process even the most complex jobs utilizing the 800 MHz dual-core processing power and up to 3 GB of memory.
- ▶ Get work done quickly with print speeds up to 70 ppm and produce your first page in as little as four seconds.
- ▶ Produce professional output with a system that delivers consistent image quality on a diverse range of materials.
- ▶ Instant warm-up fuser helps reduce energy consumption and improve time to first page.
- ▶ The large, vivid display is also ideal for print and scan preview, and has magnification and reverse-image options to assist users with varying abilities.
- ▶ Lexmark's innovative e-Task user interface makes it easy to take advantage of preinstalled solutions to meet business process needs.

Business productivity

The Lexmark XM5200 Series combines exceptional multifunction performance with time-saving applications designed to make you more productive.

- ▶ Save time with fast two-sided color scanning in a single pass and quickly convert hard-copy documents into a digital format.
- ▶ Advanced copy functions let you interrupt long print runs to make a quick copy and proof the first copy set before completing your copy job.
- ▶ Scan to multiple destinations, including network, email, FTP, fax and more.
- ▶ For higher-volume print speeds, optional input capacity can be added to keep jobs moving.

Easy and intuitive

The Lexmark XM5200 Series is designed for easy operation so you can stay focused on running your business instead of routine maintenance.

- ▶ The easy-to-navigate 7-inch or 10-inch color touch screen provides audible feedback to make tasks intuitive.
- ▶ Print preview features help you select documents or specific pages within a document.
- ▶ Extend your environmental responsibility with energy-efficient settings such as the sleep button and hibernate mode.
- ▶ Manage your devices with available software.

Propel your business forward

Our solutions are designed with your productivity in mind. The Lexmark XM5200 Series platform lets you interact with business applications directly on the device, using an on-premise server, or hosted in the cloud. Reduce unnecessary printing and simplify work processes with Lexmark solutions.

Professional-quality output is only part of the story

Lexmark is focused on delivering tailored solutions to solve the unique challenges businesses face. Lexmark's broad portfolio of high-quality products, solutions and services help improve productivity, increase efficiency and empower employees to perform at their best.

By leveraging our industry expertise, you can generate efficiency and increase productivity across business processes to move ahead. Lexmark technology solutions are tailored to your business environment—where business interactions and decisions are happening.

Empower your employees with workflow solutions that refine work processes, capture critical data and deliver information to the right place at the right time and in the right format. Contact your Lexmark Business Solutions Dealer for specific vertical solutions.* Solutions are customized through your dealer.

Advanced scanning technology

Connect your digital systems to your unstructured content with ease. The advanced scanning technology on the XM5200 makes it fast and hassle-free.

- ▶ Improve scanning productivity and capture efficiency by reducing the time involved in manual document preparation and automatically enhancing the quality of scanned images with the Lexmark VirtualReScan (VRS) integration option.⁵
- ▶ Scan a stack of mixed-sized originals at full speed.
- ▶ Keep things fast and file sizes small with color detection that scans in mono if no color is found.
- ▶ Reduce file sizes and maintain information accuracy with Mixed Raster Content (MRC) file compression.
- ▶ Get accurate, high-resolution images with Charged Coupled Device (CCD) sensors and four-piece optical glass lenses.
- ▶ Don't waste time restarting a job. Page-level jam recovery picks up where the job left off.

Navigate to efficiency

The Lexmark color touch screen is a key access point to your device. The large customizable 7-inch or 10-inch screen gives you the ability to preview thumbnails of documents prior to printing, as well as change print jobs at the device. You can even view, select and print specific pages within a document directly from the touch screen. Its easy-to-use, intuitive navigation provides fast access to functions and shortcuts.

Examples of preloaded solutions* on XM5200 Series MFPs:

AccuRead OCR

In less time than it takes to enter data manually, your organization can create searchable files or editable content using the AccuRead OCR solution, standard on the XM5270 and optional on the XM5263**.

Multi Send

Capture and route a document to multiple destinations simultaneously and print a copy if you choose. Documents can be routed to email, network folders or FTP sites.

Forms and Favorites

Eliminate waste and inefficiencies associated with preprinted forms. Store frequently printed forms, marketing materials or other documents online, then print them on demand.

Scan to Network Basic

Scan a hard copy document and route the image to one of 100 destinations.

Address Book

This application provides you with an easy way to send information about your device to your authorized dealer or internal help desk.

See the possibilities with our intuitive interface

Minimize the need for training with the familiar, modern, tablet-like capabilities of our eTask interface on a bright color touch screen. Use swipe and touch gestures to navigate the intuitive interface to access convenient capabilities, including:

- ▶ Preview your entire print job
- ▶ Customize shortcuts and bookmarks
- ▶ Realize your return on investment with true integration
- ▶ Access corporate address book for quick document routing
- ▶ Enable user tracking, accounting and permissions for cost and print management

7. Eco-friendly features Easy-to-access features like Eco-Mode reduce paper and toner consumption, while the sleep button and hibernate mode make it easy to print responsibly and save energy.

Eco-responsible

Printing responsibly and reducing the impact of printing on the environment is a win for your business and your budget. Our goal is to design, package and deliver innovative products and solutions that produce high-quality output with reliable performance, while minimizing the number of cartridges you use over the life of a printer and conserving paper and energy.

The Lexmark Cartridge Collection Program provides a variety of methods for free returns of your empty cartridges to Lexmark or our collection partners. Program availability and details vary by country.

Environmental protection is a shared responsibility

Through work with industry groups, Lexmark helps guide the formation of standards and guiding principles for environmental sustainability.

Our memberships include:

- ▶ AeA Europe
- ▶ Ecma International
- ▶ Electronics Industry Citizenship Coalition (EICC)
- ▶ DIGITALEUROPE
- ▶ European Information & Communications Technology Industry Association (EICTA)
- ▶ Information Technology Industry Council (ITI)
- ▶ Environmental Leadership Council

Keep sensitive information and documents secure

Lexmark builds network devices with security in mind to protect your data and documents throughout your entire workflow. Our wide range of security functions include device management, device hardening and device operation.

Device management. Tools include administrative access and passwords, HTTPS, SNMPv3, IP security (IPSec) and 802.1x support to remotely monitor and manage device usage.

Device hardening. Port filtering, TCP connection filtering, hard disk encryption, hard disk wiping and digitally signed firmware updates enhance the security of the device's network interface.

Device operation. Reduce vulnerabilities with authentication and authorization features, address book lookup via LDAP over SSL and device lockout for protection of user information.

Lexmark has shown its strength and leadership with respect to security by:

- ▶ Forming and chairing the group that created the IEEE 2600 standards for security on hard-copy devices
- ▶ Becoming the first hard-copy device manufacturer to take a holistic approach with the National Information Assurance Partnership (NIAP) Common Criteria evaluation

¹Average yield based on approximately 5% print coverage. ²"Recommended Monthly Page Volume" is a range of pages that helps customers evaluate Lexmark's product offerings based on the average number of pages customers plan to print on the device each month. Lexmark recommends that the number of pages per month be within the stated range for optimum device performance, based on factors including: supplies replacement intervals, paper loading intervals, speed, and typical customer usage. ³"Maximum Monthly Duty Cycle" is defined as the maximum number of pages a device could deliver in a month using a multishift operation. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs. ⁴Printers are sold subject to certain license/agreement conditions. See www.lexmark.com/printerlicense for details. ⁵Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. ⁶Print and copy speeds measured in accordance with ISO/IEC 24734 and ISO/IEC 24735 respectively (ESAT). For more information see: www.lexmark.com/ISOspeeds. ⁷Average standard page yield value declared in accordance with ISO/IEC 19752.

This is a Class A device according to the FCC Rules and international electromagnetic emissions standards. This device is not intended for use in residential or domestic environments due to potential interference to radio communications.
